Opening

Dr. Reagan: Are we living in the season of the Lord's return? If so, does it constitute date setting to say so? Furthermore, if we are living in the season, what is the evidence? Stay tuned for an interview with one of Christendom's most informed and dynamic speakers on this important issues.

Part 1

Dr. Reagan: Greetings in the name of Jesus our Blessed Hope, and welcome to Christ in Prophecy. My colleague, Nathan Jones, and I have one of our favorite Bible prophecy speakers in the studio with us today. He is Billy Crone who is the Pastor of Sunrise Baptist Church in Las Vegas, Nevada, and the founder of Get A Life! Ministries. Welcome to Christ in Prophecy, brother.

Billy Crone: Thank you, Dr. Reagan, it is always a pleasure to be on.

Nathan Jones: Great to have you back on with us, man.

Billy Crone: Hey, you too, Nathan. Good to see you again. Good to see you.

Nathan Jones: My Las Vegas, brother. I brought part of my Billy Crone collection. Man, you are a prolific author.

Dr. Reagan: That doesn't even touch the surface.

Nathan Jones: No. This is just some. We got the "Seals" here which you interview Dr. Reagan and me on it. You've got "Drones, artificial intelligence and the Coming Human Annihilation."

Billy Crone: Yeah, no pressure there.

Dr. Reagan: If you look in the dictionary under the word prolific, it will say Billy Crone.

Billy Crone: I'll take you out to lunch for that.

Nathan Jones: Oh, my word, yeah. And each of these comes CD's and discs. But we are going to talk about "The Final Countdown" series that you made.

Billy Crone: Yes.

Nathan Jones: In particular, you started with this one here, "The Jewish People and the Antichrist."

Billy Crone: Yeah.

Nathan Jones: Why did you start with the Jewish people? Why that topic?

Dr. Reagan: Why didn't you start with something like the Rapture for example?

Billy Crone: Well, believe it or not, most people don't realize how important the Jewish people is two-fold, number one in understanding the Bible period, but and certainly understanding Bible prophecy and future events. Let me explain that. Way back Old Testament, New Testament the common thread throughout the scripture is the Jewish people. And if you get the Jewish people wrong, and their identity, how that fits with the Church, you are going to mess everything up, including, again, future events. Genesis 3:15 of course we have the great promise from God after the Fall of man, in the very beginning, the Garden of Eden, God makes the amazing promise that from the seed of the woman is going to one day, come and crush the head of the serpent. Now, who's that? Well, obviously it is Jesus. But how did that happen? Well, keep reading the Old Testament in Genesis and then eventually you have God raising up Abraham out of the Ur of the Chaldees. And what happened from that? Well, that came forth the Jewish people. Who came out of that? Of course, King David. And then of course you have the Abrahamic Promises, you've got the Davidic Promises that one from the lineage of David would rule and reign over the whole planet. And eventually you keep reading through the Old Testament and it promise of the coming Messiah. Well, who is the Messiah? Jesus. Well, Jesus was Jewish. The disciples were Jewish. The early Church before Paul and Barnabas go out on their journeys was all Jewish. And so, our very heritage, our salvation is wrapped up in the story from the Old Testament, to today through Jesus. But that's not just that, if you keep reading the Bible when it comes to future events its all about the Jewish people, including the seven-year Tribulation. The seven-year Tribulation is all about the Jewish people, they're the object of focus not the Church. The seven-year Tribulation is the final week of Daniel's Seventy Week Prophecy. It is the time of Jacob's Trouble. It's not the Churches troubles, its not Peter's demise or Paul's doom. The Church wasn't even in existence for another 570 years later when that time frame was written about as that the final week of that prophecy. But, even past that, so, the Church has nothing to do with that because it's about the Jewish people, the future seven-year Tribulation. But also, after the Second Coming of Jesus, Revelation 19 what's He going to do? He is going to fulfill the unconditional eternal promises that God made to the Jewish people way back in the Old Testament that Jesus is going to rule and reign on the planet from Jerusalem. Not New York, not Beijing, again Jewish mindset context. And that He is going to renovate the planet. And then even after that final rebellion at the end of the Millennium there is the Great White Throne Judgment. And then what happens? The state of Eternity. You've got the New Heavens, the New Earth, the New Jerusalem. Again, throughout the whole of scripture the Jewish people, past, present, and future, if you get it wrong on that you are going to mess everything up, so we start with that.

Dr. Reagan: Well, Billy, you obviously are confused, because the vast majority of all Christian groups on planet earth today both Protestant and Catholics say there is no future for the Jews. God washed His hands of them in the First Century because they killed the Messiah. And He has no purpose left for them in the end times. And therefore, all those references in the book of Revelation are talking about the Church.

Billy Crone: Yeah, well, unfortunately the people need to stop listening to the pope and start reading their Bible, because that is a lie, I'll say this, it is a lie from the pit of Hell.

Nathan Jones: It is.

Billy Crone: That is one of the biggest lies that is producing Anti-Semitism not only around the world, but even here in America.

Dr. Reagan: That's right. The idea that the Church has replaced Israel.

Billy Crone: Which again is ridiculous. Again, the Church is going to be gone prior to the seven-year Tribulation. Why? Because God is not done with the Jewish people. And how do you get past even passages, even in the New Testament Romans chapter 11 when Paul deliberately says basically Church don't get a big head.

Dr. Reagan: You jump over Romans 9-11.

Billy Crone: Yes, exactly. And that's unfortunate what they do, but he says they are under a temporary blindness or hardness. It is not permanent; God is not done. Now, why is that important for you and I to understand? Because again, number one, people keep trying to cram the Church into a time frame that they have nothing to be part of it and it is about the Jewish people. The seven-year Tribulation is basically God's discipline tool, if you will, to wake up the Jewish people because He is not done with them. That they would see that Jesus is their Messiah. They missed it the first time, they are going to get it and wake up in the seven-year Tribulation, so it is kind of good news bad news. But they keep trying to cram the Church in there when the Church is not the focus. Now, why is it important to understand the different dichotomies of God's plan for the Jewish people that is still in play, even though it is temporary blindness, and the Church? Because again that keeps the Church out of the seven-year Tribulation which is biblical, number one, but think about it when people put the Church in the seven-year Tribulation to me that is a form of Replacement Theology. Because the scripture says that the Jewish people are the focus of the seven-year Tribulation, but you are replacing that by saying, "No, the focus is the Church, and somehow you have to survive." Plus, if in fact God made unconditional eternal promises, and He did in the Old Testament, okay, to the Jewish people, and if arbitrarily you say, "Nope, nope He's apparently not going to fulfill those because now the Church has replaced Israel and it is all the focus on the Church." Then wait a second, if He didn't keep promises to them that were supposed to be unconditional and eternal, then how are we supposed to have any sign of security that He is going to keep our unconditional promises?

Dr. Reagan: Absolutely.

Nathan Jones: Absolutely.

Nathan Jones: It's crazy.

Dr. Reagan: Beautiful point. An important point. Yeah.

Nathan Jones: Billy, I noticed in your book, "The Final Countdown" in volume 1 it deals with the Jewish people and the Antichrist. You dedicate five chapters to the Temple. Why so much on the Temple?

Billy Crone: Well, part of it was we were there not too long ago, and actually was at the Temple Institute and getting to see these things with my own eyes.

Nathan Jones: Not the Temple itself.

Billy Crone: But not the Temple itself, but the articles that they are making for this Temple. And the reason why the Temple is so important is because the scripture is clear that you have

this event called the Abomination of Desolation, again Daniel talks about that, Jesus talks about that in Matthew 24. Paul talks about that also in Thessalonians. Where basically at the halfway point of the seven-year Tribulation the Antichrist goes up into apparently a rebuilt Jewish Temple.

Nathan Jones: Which doesn't even exist.

Billy Crone: And he is going to declare himself to be God. Right? And after that he is going to, unfortunately, another holocaust is coming on the Jewish people; Zechariah tells us two-thirds are going to be annihilated. God is going to sovereignly going to protect, Revelation 12, one-third of them because again He is not done with them. But that tells you at the mid-way point of the Seven-year Tribulation there is going to be a Temple. So, if that is going to come to pass, then are there any signs right now today that the Jewish people really are preparing for a Temple? Absolutely.

Nathan Jones: Yeah, how close are we to that?

Billy Crone: Oh, man, basically every article that you could think of is not coming, it's already been done. They've been working on this for years, including, they have three different reports from different Rabbis who they even believe they know where the Ark of the Covenant is, and it is not in Ethiopia, they laugh at that. They say, "We know where it's at." And basically, when the time comes we are going to go get it.

Dr. Reagan: They believe it is under the Temple Mount.

Billy Crone: Absolutely. Absolutely.

Dr. Reagan: In a certain vault there.

Billy Crone: Yeah.

Nathan Jones: Because there are catacombs all underneath the Temple Mount.

Billy Crone: Yeah, and we went under there and basically were shown, some people say, "It is right over there behind that wall." But be that as it may they've got every article you could possibly think of is done. And they are spending millions and millions of dollars on this.

Dr. Reagan: One time I asked them, I said, "How in the world are you going to get the Temple up quickly?" Because they were saying, "We are going to get it up quickly." And they told me, they said, "What we plan to do is if we are given the word today we'll have the Temple up tomorrow." I said, "How?" "Because we would set up a Temple like the Tabernacle of Moses and then start building the permanent Temple around and above it. But we'll just set up the Tabernacle of Moses."

Billy Crone: Yeah. And I agree with you, Dr. Reagan, too, believe you me they are not going to mess around. If they can finally work out a deal, quote "deal" and get permission.

Nathan Jones: Yeah, how are they going to get permission? Because right now something very big up there, right?

Dr. Reagan: Let me tell you how I think they are going to do it, I think, now this is just my--

Nathan Jones: To get rid of the Dome of the Rock?

Dr. Reagan: No, I think what is going to happen is that it says that when the invasion of Gog and Magog occurs there is going to be an incredible earthquake, it says all the walls will come down. I believe that earthquake is going to destroy the Dome of the Rock, and the Jews will be ready to build.

Nathan Jones: What is interesting too, as a result of the Gog and Magog War is the destruction pretty much of Islam in the Middle East. So, that would not be an issue anymore with Islam keeping control of the Temple Mount.

Dr. Reagan: Every time a war breaks out over there I pray that one of those missiles they are shooting into Israel will land on the Dome of the Rock.

Billy Crone: Well, either way, we know it is going to happen.

Dr. Reagan: Yeah.

Billy Crone: It is going to happen because it is in the seven-year Tribulation, that is pretty cut and dry. But again, they've got the priesthood has been trained for years. They even have picked already, believe it or not, a high priest, Rabbi Baruch Kahane, they've already got the high priest. They're already doing the ceremonies again. They are even doing animal sacrifices again.

Dr. Reagan: They have the architectural plans drawn.

Billy Crone: In 3-D. You can actually go online right now through the Temple Institute. And it is really wild when you look at it, it is surreal because it is 3-D animated based on the plans. And going like, am I looking at the actual, granted animated, but still Temple that is going to be in the seven-year Tribulation.

Nathan Jones: Or the menorah that is outside the Western Wall in a glass case. You can see the actual menorah that is supposed to be in the Temple.

Dr. Reagan: I assume that you believe we are in the season of the Lord's return.

Billy Crone: Well, absolutely. We can't be date setters. I don't care how nifty somebody is with a calculator, or how many math degrees you have.

Dr. Reagan: So, you are saying that to say we are in the season of the Lord's return doesn't mean you are a date setter.

Billy Crone: No, it's not, and that's common sense. You know Jesus gives us signs of the time. You know when it is getting close when you see this birth pains, these events escalating, whether it is the signs of the Jewish Temple, or the Jewish people coming back on the scene and things of that nature, it is getting close. God doesn't give us the exact day nor the hour, of course because what would we do? We would goof off until the very end. No, seriously. And not just for the Christian, but for the non-Christian. Well, if He is coming back, I guess I better get saved now.

Nathan Jones: Eat drink and be merry.

Billy Crone: It doesn't happen that way.

Dr. Reagan: Yeah, I'll get straight with Him tomorrow.

Billy Crone: Exactly, and God know that of course, so I think that is common sense. But, He does give us signs when it is getting close. So, if you are a Christian you need to finish strong, you need to be about the Father's business. Don't get distracted in this world. Get busy sharing the Gospel. If you're not saved, you better get saved now.

Dr. Reagan: You know when people say that God has no purpose for the Jews in the end time I always think about the fact that Jesus Himself said, "I will not come back to this earth until the Jewish people are willing to say, "Baruch haba b'shem Adonia" "Blessed is He who comes in the name of the Lord." I would say that is a pretty important role on their part.

Billy Crone: Yeah, absolutely. And that is why the Scripture is clear God is not done with them. But the point of us seeing this Temple, if we see the logical point, we are not date setters, but if we see this Temple being built that we know the Antichrist will commit his dastardly deed, the Abomination of Desolation in the half-way point, and we leave prior to the seven-year Tribulation. We don't know the date or the hour, but man it is getting close. Our departure, the Rapture.

Dr. Reagan: Folks, we are going to take a brief break and when we come back we are going to talk about volume 2 of his "Final Countdown" series about modern technology.

Part 2

Nathan Jones: Welcome back to Christ in Prophecy and our interview with Bible prophecy expert, Billy Crone. Well, Billy let's address your second book in the "Final Countdown" series "Modern Technology."

Billy Crone: Yes.

Nathan Jones: How do you see modern technology helping us understand Bible prophecy?

Billy Crone: Well, I think it is really important, modern technology is almost like a sleeper sign I call it, it is something that we are completely immersed in, we take it for granted. Our very lives depend upon it, and we don't even think about it. But it is a huge mega sign that we are living in the last days. Also, I think it helps to dispel the scoffer that Peter talked about that would come in the last days. And we certainly are living in those days when people scoff at the Bible. And one of the things they scoff about that He mentions there is, "Oh, where is the Lord's coming? You Christians have been saying Jesus is coming back for 50 years now, and nothing ever changes."

Nathan Jones: Nothing's changed.

Billy Crone: Excuse me, not when you understand modern technology. Modern technology when you see things that are happening in our lifetime, including even just the last few years, have everything to do with events recorded for us dealing with Bible prophecy.

Dr. Reagan: Give us some examples.

Billy Crone: Yeah, some classic examples of course would be the two witnesses, Revelation chapter 11 and it says there that these people are going to, the world is going to be gazing on these two bodies there, lying in the streets for 3 ½ days. Well, stop right there. The Apostle John

is writing this approximately 2,000 years ago, and I'm just guessing, but he must have been going, "How in the world is that going to happen?"

Dr. Reagan: Yeah, how can the whole world watch two people die.

Billy Crone: You and in our lifetime, right, what's happened? We can watch anything we want. Anywhere around the world of any event. It is satellite technology. Not only satellite technology, bring in internet technology which allows you to stream.

Nathan Jones: Cell phones, cameras.

Billy Crone: And those are recent inventions. Never here before in the history of mankind. But they are here today. And they allow you to do exactly what that text says.

Nathan Jones: And you brought up the fact that once the world sees the two witnesses killed they start sharing presents and sending them to each other around the world. How do they do that in such a short amount of time. Amazon?

Billy Crone: Yeah, no seriously I really think that is all part of it because you keep reading, they're not just watching, the world is so wicked at that point in time that they are celebrating the death of these two righteous witnesses. And that is a whole another topic. But, it says there, and they send, and the context is global, they send celebratory gifts over the death of these guys. And you are like, what a second? Again, put yourself back to 2,000 years ago. How are you going to send a gift around the world? And again, the context is 3 ½ days. It's like that ain't going to happen.

Nathan Jones: No.

Billy Crone: But guess what? You and I we can send anything we want, anywhere around the world, and not in just 3 ½ days. You can get third day air, second day air, first day air. And then now you mentioned Amazon. Amazon man, they beat everybody.

Nathan Jones: A drone shows up.

Billy Crone: You've got drones that can drop it off. You can do it in an hour or less.

Dr. Reagan: You made a humorous comment about John saying, "Well, I don't understand that." You know.

Billy Crone: Yeah.

Dr. Reagan: Well, that is a good point because the prophets did not always understand the prophecies they were writing. Daniel gets to the end of Daniel in chapter 12 and says, "Lord, I don't understand these things, what do they mean?" He said, "Cool it, it's not for you to understand."

Billy Crone: Exactly.

Dr. Reagan: And He told Jeremiah the same thing, it will be understood when the time comes for it to be understood. That's one of the reasons we know we are in the season of the Lord's return. We are understanding prophecies we never understood before.

Billy Crone: Exactly. Which tells you again, modern technology, when you pay attention to everything we take for granted: technology, broadcast, all kinds of things, the internet, computers.

Dr. Reagan: Let's take one of those prophecies for example. In the book of Revelation, it says that the false prophet is going to make an image of the Antichrist that will seem to come alive.

Billy Crone: Yeah.

Dr. Reagan: Tell us about that.

Billy Crone: Yeah, we have a whole section dealing with hologram technology, not just hologram technology.

Dr. Reagan: Which is amazing.

Billy Crone: But 3-D hologram technology. In fact, it is so complex people don't even put two and two together, unfortunately, because they're not reading the Bible, and certainly not studying Bible prophecy. But you are going, wait a second, first of all it is an image, and it is an image that apparently has a global outreach. And it is an image that can speak and cause anybody if you don't do what he says, he's going to give an order and you are going to die. And you are like, what? What is going on there?

Nathan Jones: And they worship it.

Billy Crone: And they worship it. But, listen what's going on today? What's the latest rage in the world? Is they are bringing not just singers back, but dead singers back. Michael Jackson, Tupac, Elvis, Frank Sinatra, of course we live in Vegas, and they are literally bringing them back on stage. They look totally real. It is just an image, but people what do they do? They worship. Ah, these idols.

Nathan Jones: They go crazy.

Billy Crone: And politicians are using the same technology. And you put that all together and you are going like, "Man, these things could be broadcast all around the world." And you are going like? Man, even that, even the image that is mentioned there, certainly, we have the technology to pull off a global event like that. It's amazing. But I've got to share one things we have one whole section there on just on this baby right here.

Nathan Jones: Cellphones.

Billy Crone: That people take for granted, one whole message on just the cellphone. What does this have to do with Bible prophecy? Well, think about it. And what I draw from is certainly Revelation 13, and Matthew 24. Revelation 13 tells us that the Antichrist and the false prophet that they are basically at this point in the seven-year Tribulation micro-managing the planet. Because it says there that they are going to give out an order, you worship this image, or you take this mark, if you don't do it you're not only going to be shut out of the system, you can't buy and sell, but you're also you're going to die if you don't worship, right? If you don't worship this image you're going to be killed. Now, you put yourself in Matthew 24 it talks about people who followed, the followers of God, that they are going to be hated and persecuted, they are going to be killed. And you are going like, "Well, wait a second so, how is the Antichrist when he gives the order, 'Worship me,' you know whatever, how is he going to know who, and it is a global

basis, anywhere on the planet whether somebody said, 'I'm not going to worship you.'" Or whatever.

Nathan Jones: Yeah, that is a good question.

Billy Crone: And not only know who chooses to not worship him, but he is going to give an order to take them out. And you are like, so you got to not only know who said, yes, and who didn't. You got to know exactly where they're out to go and find them and take them out. Right here. This baby that we pay for, right now it is coming out it is secular, this thing is not just a cellphone, this is the world's biggest big brother tracking, listening device ever invented in the history of mankind.

Dr. Reagan: I remember a few years ago reading about a criminal in New York State, New York City in fact who had committed a crime and he sent, he kidnapped somebody, and he sent a photo of the person he had kidnapped to the police. He didn't know the photo contains all the information about where he is located.

Billy Crone: Yeah, oh, yeah.

Dr. Reagan: Exactly where he is located.

Billy Crone: Well, exactly. In fact, we expose that, right now these are the easiest devices, anybody around the world can hack into your phone. And it isn't just to get your data, which we store on here our financial information, our personal information, e-mails, photos. You know. But at the same time, they can access the microphone on this, and this thing can become a bugging device. They can tap in and listen. And we demonstrate this, this is not wackyjoe.com, conspiracyguy.org, I hope those are not websites, but, this is in the news, they are admitting this that they can turn it, and no light comes on, no nothing. And all of a sudden this thing, and everyone's got to have one, even kids.

Nathan Jones: And they know where you are at all times.

Billy Crone: And they can listen in. And it's not just listening in, we also demonstrate they can turn on the camera. So, they can listen, they can watch anywhere around the world. Now, again, go back to Bible prophecy. How is he going to know if people obey or not? Everybody's got a phone, he'll know exactly every conversation.

Dr. Reagan: I turn my GPS on, I have to incase I lose my phone, or if I'm on a map trying to find something. But when I turn it on, what really bugs me is I'll get a message that says, "How did you enjoy your meal at Chick-fil-A?"

Billy Crone: Yeah.

Dr. Reagan: It knows where I ate.

Billy Crone: It knows where you are. And this is whole another topic, we have another expose on social media, which is also tied into to apps and things that you download. But the social media, Facebook, I call Tracebook because it is developing massive global profile. And they are over like 2 ½ billion people have a Facebook account, that is not counting Twitter, Instagram, or any of that stuff. And they are building massive profiles. But this is also connected with this baby. But that's why we expose that they are listening to you, in real time, on your phone, because you are having a conversation with somebody and we give many examples from

secular people. And they are going, “Yeah, that is kind of funny. I mean we were talking about mattresses and the next thing I went to my phone my Facebook popped up, and here’s a mattress from Amazon.com.” And we laugh about that.

Dr. Reagan: Boy, that is scary.

Billy Crone: But stop and think about, that means, that means, it is not a conspiracy theory, your phone is listening to you, it is watching you. And of course, they are using it for targeted advertising, which is bad enough. But again, put yourself, fast-forward into the seven-year Tribulation, on a global basis somebody is going to give an order, you need to worship this image, or you are going to die. Yeah, how is he going to know? I’m sitting there in my living room, not me, but somebody in the seven-year Tribulation. “I’m not going to worship that guy, whatever.” They’ll know exactly what you just said. The other half of this is not just listening and watching, it is a tracking device. We actually demonstrated this, this was on Fox News and we shared the clip, but they even tested it with the phones. They even, not only turned into airplane mode, they even took out the SIM card and they were able to demonstrate, and the guy went around Washington D.C. and you can see the whole thing. And he came back, and he put it into a device before it uploaded up to the internet, shut the Wi-Fi off so it had no signal, so you are thinking, well it can’t track me. They plugged it back in and as soon as it got an internet signal they saw it was tracking everything. They not only knew exactly where he was, it even predicted how many steps. It even predicted when he got in and out of the car. That’s with the functions shut off and the SIM card out. So, this is the world’s biggest not just listening and monitoring device, it is a tracking device, and you need both of those in play if somebody on a global basis is going to know who worships and who doesn’t, and you’ll know their exact location to take them out. That’s never been here before in the history of mankind, but it is right here, right now, and we take it for granted.

Nathan Jones: Well, what do you think, I got to visit your church Sunrise Bible Church because I was at a big convention out in Nevada, and it was all about technology. And the big buzz word was artificial intelligence. And you do have a chapter in here on, you have a whole book actually on artificial intelligence. Where do you think that’s going as it relates to Bible prophecy?

Billy Crone: Man, that is a whole another can of worms. In fact, we are working on right now part 3, volume 3 called--

Dr. Reagan: That’s going to be your next volume?

Billy Crone: “The AI Invasion.” It is all on artificial intelligence, we touch on it a little bit here in the second volume.

Dr. Reagan: Well, I had a person who didn’t like what I was teaching told me I had artificial intelligence. Is that what artificial intelligence is all about?

Billy Crone: Unfortunately, no. You’d almost wish that when you understand what is going on with that. But that goes back to another modern technology aspect, Daniel 12 talks about an increase of travel to and fro, but also this increase of information. Even the secularists are saying, this information, again we have so much information we don’t know what to do with. We have information at our fingertips around the world that people in their whole lifetime, we got more information in one day then they would get in their whole lifetime. It’s nuts. But we have so

much information, and this information they are concerned that it is going to develop an apocalyptic event, called singularity. And that's their term not mine, that this is going to spawn a super intelligence that is going to improve on itself, and that version improve, and it's going to spiral out of control, and basically begin to control the planet.

Nathan Jones: Like Skynet from the "Terminator" movie it is going to become self-aware?

Billy Crone: Well, there is some speculation with that. But what I'm saying is when you look at the global events, when you have a global economy, a global tracking system and all this stuff you are building systems on a global basis that mankind cannot handle. So, you need, I think AI comes into play, you need to have an superintelligence to run that backend system that is going to control the government, the religion, the economy, and even the mark of the beast system knowing what people can buy and sell, and that is here today called artificial intelligence.

Dr. Reagan: Folks, we are going to have to pause here. But in just a moment we are coming back and we're going to tell you how you can get in touch with Billy, his ministry, and find out about all the wonderful materials that he has available through his ministry. So, hang on, we'll be back in just a moment.

Part 3

Nathan Jones: Welcome back to Christ in Prophecy and our interview of Bible prophecy expert, Billy Crone. Hey, Billy if someone wants to get in touch with you, or learn about your wonderful resources how would they do that?

Billy Crone: Well, you can go to go to our website: getalifemedia.com, or you can just search name Billy Crone, or you can download our latest app the Billy Crone app on your Android or iPhone device, and check out about nine-years-worth of material for free.

Dr. Reagan: Well, thank you Billy for being with us again today.

Billy Crone: Thank you, Dr. Reagan. Thank you, Nathan.

Dr. Reagan: It's been a real blessing. Folks, that is our program for today. I hope our program has been a blessing to you, and I hope the Lord willing that you'll be back with us next week. Until then this is Dave Reagan speaking for Lamb & Lion Ministries saying, "Look up, be watchful, for our redemption is drawing near."

End of Program
